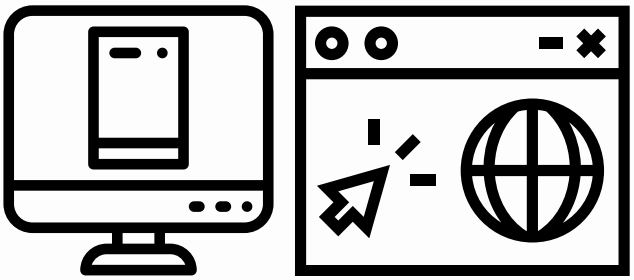
PROFILE

Dedicated Front-End Developer focused on building high-quality, responsive web applications. Proficient in JavaScript/TypeScript, React/Next.js, API and utilizing modern component libraries. Committed to clean code practices, accessibility, and translating design concepts into functional, pixel-perfect user interfaces that enhance the User Experience.

EXPERIENCE

MYBELLY APS - Internship Multimedia Design
Coded a size guide application in JavaScript where you can enter measurements and get S, M, L, XL as output.

In between education/school changes, I participated in activation through the job center, where I worked with various tasks at local workplaces in the municipality. Here I developed practical skills and collaboration abilities.

EDUCATION


International Business Academy IBA - Kolding
